

Graph reading and scale: Student worksheet

A class of students recorded the number of years their families had lived in their town. Here are **two** graphs that students drew to tell the story.

Graph 1

Graph 2

1. What are two things you can tell about Graph 1?
2. What are two things you can tell about Graph 2?
3. Describe the difference between Graph 1 and Graph 2.
4. Which plot tells the story of how long the students' families have lived in their town better?
